Expires: June 1984

ELEVATION CERTIFICATE 117/6

This form is to be used for: 1) New/Emergency Program construction in Special Flood Hazard Areas; 2) Pre-FIRM construction after September 30, 1982; 3) Post-FIRM construction; and, 4) Other buildings rated as Post-FIRM rules.

John Orsino, 3713 Haddonfield Road, Pennsauken, NJ 08109

BUILDING OWNERS NAME Lot 6, Block 117, 35th Avenue, Borough of Longport, New Jersey  
ADDRESS  
PROPERTY LOCATION (Lot and Block numbers and address if available)

I certify that the information on this certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. code, Section 1001.

SECTION I ELIGIBILITY CERTIFICATION (Completed by Local Community Permit Official or a Registered Professional Engineer, Architect, or Surveyor)

COMMUNITY NO	PANEL NO	SUFFIX	DATE OF FIRM	FIRM ZONE	DATE OF CONSTR.	BASE FLOOD ELEV. (in AO Zone, use depth)	BUILDING IS
345302	0001	B	8/15/83	A8		10.0	<input type="checkbox"/> New/Emergency <input type="checkbox"/> Pre-FIRM Reg. <input type="checkbox"/> Post-FIRM Reg.

YES NO It is intended that the building described above will be constructed in compliance with the community's flood plain ordinance. The certifier may rely on community records. The lowest floor (including basement) will be at an elevation of 10.0 ft, NGVD. Failure to construct the building at this elevation may place the building in violation of the community's flood plain management ordinance.

YES NO The building described above has been constructed in compliance with the community's flood plain management ordinance based on elevation data and visual inspection or other reasonable means.  
 NO is checked, attach copy of variance issued by the community.

YES NO The mobile home located at the address described above has been tied down (anchored) in compliance with the community's flood plain management ordinance, or in compliance with the NFIP Specifications.

SECTION II ELEVATION CERTIFICATION (Certified by a Local Community Permit Official or a Registered Professional Engineer, Architect, or Surveyor.)

FIRM ZONE A1-A30: I certify that the building at the property location described above has the lowest floor (including basement) at an elevation of 10.89 feet, NGVD (mean sea level) and the average grade at the building site is at an elevation of 7.5 feet, NGVD.

FIRM ZONES V, V1-V30: I certify that the building at the property location described above has the bottom of the lowest floor beam at an elevation of          feet, NGVD (mean sea level), and the average grade at the building site floor elevation of          feet, NGVD. The elevation of the highest adjacent grade next to the building is          feet, NGVD.

FIRM ZONE AO: I certify that the building at the property location described above has the lowest floor elevation of          feet, NGVD. The elevation of the highest adjacent grade next to the building is          feet, NGVD.

SECTION III FLOODPROOFING CERTIFICATION (Certification by a Registered Professional Engineer or Architect)

I certify to the best of my knowledge, information, and belief, that the building is designed so that the building is watertight, with walls substantially impermeable to the passage of water and structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy that would be caused by the flood depths, pressures velocities, impact and uplift forces associated with the base flood.  
YES  NO

In the event of flooding, will this degree of floodproofing be achieved with human intervention?  
(Human intervention means that water will enter the building when floods up to the base flood level occur unless measures are taken prior to the flood to prevent entry of water (e.g., bolting metal shields over doors and windows).  
YES  NO  Will the building be occupied as a residence?

If the answer to both questions is YES, the floodproofing cannot be credited for rating purposes and the actual lowest floor must be completed and certified instead. Complete both the elevation and floodproofing certificates.  
FIRM ZONES A, A1-A30, V1-V30, AO and AH: Certified Floodproofed Elevation is          feet, (NGVD).

THIS CERTIFICATION IS FOR  SECTION II  BOTH SECTIONS II AND III (Check One)
