

## **Longport Water Tower Update – January 31, 2023**

Internal renovation work continues on Longport's water tower. The interior dry work has been completed and the inside has been primed for painting. During this time, and throughout the renovation period, residents might experience fluctuations in water pressure and discoloration. The Longport Public Works Department has been working vigilantly to maintain constant pressure throughout the work period. As a way to regulate pressure, the public works department might find it necessary to release water through fire hydrants at times.

Exterior work is scheduled to begin shortly and residents will begin to see scaffolding assembled outside of the water tower. This is necessary for exterior work including painting. Renovation work is scheduled to be completed by April 30, 2023.

If you experience any discoloration, please be aware that this is temporary and residents are advised to let the water run until it clears. Please take this into consideration when washing laundry, especially lighter colors.

**If you experience a water emergency during regular business hours (Monday through Friday from 9 am to 4 pm) please contact the Longport Public Works Department at 609-823-2731 ext. 114. If you experience a water emergency after hours, please contact the Longport Police Department by calling 609-822-2141.**

We apologize for any inconvenience this may cause and thank you for your continued patience and understanding.
